These goals are mutually accepted on realistic terms. The goals could be from the detection of potential business partners, distributors, joint ventures, clinical trials, regulatory procedures, and the most important, the sales. If the goals were not met as agreed at the beginning to the month, the customer is free to not pay the invoice for the month in course and give an extra month to obtain the goals and pay. All customers receive an invoice at the beginning of every month, but they pay the last day to give them peace of mind in regards to the control of the guarantee offered. <p>Monthly costs Infinitus</p> <p>€3970 EUR = \$6000 CAD</p> 	<ul style="list-style-type: none"> The reason our monthly cost is so competitive is because we work for a pool of companies looking to expand internationally in the same region. Infinitus is looking to sponsor spaces in respected trade shows around the world to benefit customers and decrease their costs, and become the best tool for international growth. It is strongly suggested that at least three month contract is implemented to see results, however, it is open to the customer to decide the time they want to work under the Infinitus model. A month is offered from us at no cost to prepare a document with market intelligence and to have all training required, so your Company avoid the cost of “learning curve” and have all ready for the beginning of our contract. Our proposal is different, innovative, and in good faith to adapt the needs of all our new customers.
